Top View

All items made to order, using our own waste ceramic pieces. Other designs may be available, depending on the number of pieces available at any given time. Each piece will vary.

Dimensions: Square mirror is 20 x 20; large mirror is 17 x 20; small mirror is 11 x 13. Take care when hanging - they are heavy!

Small table is 16 x 16 x 20 inches high; large table is 16 x 34 x 20 inches high.

Photos are not to scale.

Although each item is sealed with grout sealer, they are intended for interior use only.

Please Note:

Designs only come in the sizes/items pictured. Not all designs are available in all configurations. Due to fluctuations in kiln temperatures, and the nature of the glazes we use, colors may not be as shown in the catalog, and may vary.

All switchplates come with nylon screws. Use caution when installing. Do not overtighten. If necessary, the screws can be shortened by cutting with scissors. All clocks come with a battery-operated mechanism. They require one AA battery to operate.
